

Great performance, pure joy – TWE’s all-purpose tissues for professional cleaning and perfect cleanliness

Cleanliness is in demand everywhere – just like the products from TWE.

Whether in private households or professional cleaning, the versatile twecleaning products provide strong performance and excellent results in every way: All clothes can be printed and

designed in mono or multi-colours and are also available in various shape and packaging variations.

Furthermore, TWE satisfies customer wishes, for example when it comes to antibacterial features and offers many coating and refining processes. TWE has every thing for a clean solution.

Clean future: TWE’s contribution to a clean and healthy future

Shape the future: Experience our contribution to a clean, healthy and sustainable world!

Both now and in the future, it is our obligation to handle the resources and products around us as responsibly as possible. Our contribution to this are intelligent solutions made from environmentally-friendly nonwovens with added value. Working with our customers and partners, we

create innovative products that will shape our future quality of life. Using raw materials from recycled PET bottles or from corn or natural fibres etc, TWE has a definite responsibility directive. Helping you to move forward while being reliable and protecting our environment is our philosophy.

Quick at hand: Clean solutions for anything.

The TWE products can not only be used in private households, but also for professional cleaning. These needle-punched nonwovens are produced at our German sites and bonded by means of

thermic processes. The twe group produces high quality nonwovens for diverse areas of application, for instance:

• floor cloth

• all-purpose cloth

Our products are available in several colours. Among others, in the standard colours:

- white • yellow • blue • orange • green • rosé

Moreover, we produce diverse trend colours like:

- neon green • neon pink • caribic • purple

High-quality fibres for excellent results

We use the best fibres and fibre mixtures for the production of TWE products.

Our products are produced from the following fibres:
• viscose • polypropylene • polyester (optional)
• corn fiber (PLA)

Roll goods

Available in:
• Roll widths of 30 cm to 500 cm
• Weight range from 85 g/sqm to 500 g/sqm

All products can be printed according to customer wishes in up to five different colours. Also the perforation can be performed individually.

Cut goods

Available in:
• Unfolded • Quarter-folding • N-folding • M-folding
