

Customized. Efficient. Long-lasting.

We develop durable nonwovens for a diverse portfolio of filtration applications. From HVAC to professional air and liquid filter materials for the entire industry.

Customized

Efficient

Long-lasting

Through research, further development, and substantial know-how, our division is growing continuously with and for our customers.

The key facts.

The TWE Group offers customized special solutions for air and liquid filtration. Our high-quality nonwovens ensure reliable filtration and long-lasting performance in various applications such as ventilation and air conditioning, paint booths, household applications, automotive and industrial applications. Product properties such as weight, circumference, color, stretchability and formability can be flexibly adapted to create individual solutions. Our products are not only tailored to current requirements, but are also future-proof and offer long-lasting performance.
